

# ATARI SINGS YOUR FAVORITE SONGS!!!

THE Original VOICE BOX Speech Synthesizer by the ALIEN GROUP has received rave reviews:

**MICRO COMPUTING**—"The VOICE BOX injects an endearing personality to your computer. The possibilities are enormous."

**COMPUTE**—"The VOICE BOX offers more human-like tones and does not blank out the screen."

**CREATIVE COMPUTING**—"English text and phonetic code may be freely intermixed rather than requiring separate modes as is the case without exception with every other speech system. A mode called talking face displays an animated face with impressive lip sync animation."

**ANTIC**—"There is a great potential for teaching children to spell and an added dimension to games overall. I believe the VOICE BOX is well worth the price tag."

**ANALOG**—"For ATARI owners who want to add speech to their programs, the Alien Group VOICE BOX is probably the best choice."

**POPULAR SCIENCE**—"The speech quality is excellent. Besides creating speech, the software has a bit of fun with graphics."

and on the new VOICE BOX II.....

**TIME MAGAZINE**—"Machine of the Year" "The VOICE BOX by the Alien Group enables an ATARI to say aloud anything typed on its keyboard in any language. It also sings "Amazing Grace" and "When I'm 64" or anything else that anyone wants to teach it."
